

www.quavatel.com

Introduction

Quavatel is focused on building the required infrastructure that enables individuals, businesses, and communities to access the Internet.

Quavatel provides a Turn-key optical fiber network deployment. Quavatel also provides 24/7/365 maintenance of the optical fiber network with fully equipped OFC engineers and a 24/7 NOC.

Mission & Vision

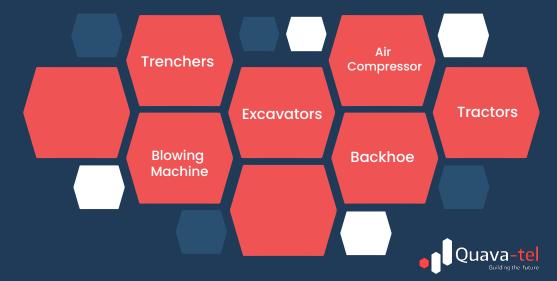

Mission

To make use of Custom –built, World class telecommunication solutions to deliver highquality, hassle free, reliable turnkey projects.

Vision

To be the region's premier provider of telecommunication infrastructure engineering services through constant innovation and improvement while contributing to society.

INVEST IN QUALITY PRODUCTS

PRODUCT BRANDS

We collaborate with reputable brands from various parts of the world who are well-known in the industry to ensure that we provide our clients with genuine and high-quality equipment and parts.

Brands & Models

TRACTOR YISEN-WEICHAI BRAND EXCAVATOR DOOSAN DX225-7 MODEL

TRENCHER TESMEC TRS 975 B

BACKHOE JCB 3DX Brand

AIR COMPRESSOR & JACKHAMMERS ATLAS COPCO

Blowing Machine TORNADO - MODEL : 89099 GMP

We are dedicated to delivering exceptional customer satisfaction, ensuring profitability, enhancing competitiveness, fostering employee satisfaction, and continuously improving quality and productivity. With a strong emphasis on effective information technology and strategic management, we prioritize close collaboration with our clients to meet their unique needs and drive mutual success in the telecom industry.

P

Trencher

From soft and sandy to hard as a rock, trenchers are designed to offer efficiency in trenching. 1. Trenching - All soil profiles

- 2. Duct laying
- 3. Backfilling

Tractor Trencher/Farm — Quantity 2 Red soil — 1.5km — 2km Full Tank diesel — 200 Liters

Excavator

Digging purposes as well as various lifting and carrying tasks in various applications:

- 1. Trenching
- 2. Backfilling
- 3. Rock breaking when fitted with a breaker

Excavators — Quantity 2 Murram — 1km Red soil — 2km Full Tank Diesel — 400 Liters

Backhoe

A backhoe is a versatile construction machine designed to perform both digging and material handling tasks on a construction site.

- 1. Trenching
- 2. Backfilling
- 3. Rock breaking when fitted with a breaker

Backhoe – Quantity 1 Murram – 300 meters Red soil – 700 Meters Full Tank Diesel – 120 Liters

Tractors

The tractors are available for hire that can be used for:

- 1. Trenching
- 2. Backfilling
- 3. Can be attached with an Auger -To be used for Pit digging.
- 4. Fitted with a crane and used for erecting poles.

Tractor Trencher/Farm — Quantity 2 Red soil — 1.5km — 2km Full Tank diesel — 200 Liters

Air Compressor

Our air compressors provide reliable and efficient performance for various applications, from powering tools to inflating tires and spray painting. Available in multiple sizes and capacities, they offer low noise operation, portability, and built-in safety features. Ideal for both industrial and commercial use, with flexible hire options available.

Blowing Machine

Our blowing machines are designed for efficient material handling, including plastic bottle production, mold blowing, and industrial cleaning. With robust construction, easy operation, and adjustable settings, these machines ensure high performance and precision.
